

CHANGE MANAGEMENT FOUNDATION

ABSTRACT.

Become an effective team member involved in organizational change projects with our 3-day Change Management Foundation course.

This program will examine various change management techniques and explore change management models that could be effectively implemented in your organization. The structured approach helps you understand how you deal with change as an individual, as a member of a team or organization, and as a leader.

Given that a primary course goal is to achieve the Foundation™ certification, the course textbook will be provided in advance of the workshop so the participant may begin studying. In addition, daily homework assignments and practice exams will be provided. The Foundation™ level exam is taken at the end of the course on the third day.

LEARNING OBJECTIVES

This three-day workshop will enable participants to:

- Understand how individuals learn and why many may resist change
- Understand how to build an effective change team
- Understand various approaches to plan, implement, and sustain organizational change
- Understand how to assess change impact and readiness and deal with resistance
- Improve your ability to pass the APMG Change Management Foundation Certification exam
